

# INTERSPEECH 2022

September 18 – 22, 2022 · Incheon Songdo Convensia, Korea

Human and Humanizing Speech Technology

## CALL FOR TUTORIALS

**DEADLINE EXTENDED MARCH 31, 2022**

INTERSPEECH conferences are attended by researchers with a long-term track-record in speech sciences and technology, as well as by early-stage researchers or researchers interested in a new domain within the INTERSPEECH areas. An important part of the conference is the tutorials held on the first day of the conference (September 18, 2022). Speakers with long and deep expertise in speech will provide their audience with a rich learning experience and exposure to longstanding research problems, contemporary topics of research as well as emerging areas.

We encourage proposals for addressing introductory or advanced topics in an introductory style as well as for targeting experienced researchers who want to dig deeper into a given new topic. Tutorials, each 3-hour duration, may introduce an emerging area of speech-related research, or present an overview of an established area of research, rather than focus on the presenter's individual research.

**While the meeting events including tutorials will be held in person, we will also consider remote tutorial proposals. Proposals for remote tutorials should articulate how they plan to engage and interact with the audience virtually.**

## Date and Venue of the Tutorial

- September 18, 2022, 8 tutorials - 4 parallel tutorials in the morning and 4 in the afternoon
- TBA

## Proposals Should Include (in this order)

- Tutorial Title
- Presenter(s) name and affiliation
- Contact Information (Email, Telephone)
- 3-4 sentence abstract summarizing the proposed tutorial that could be used as an advertisement
- Description of the proposal (1-2 pages description, a few relevant references, any webpages/material useful for reviewing the proposal)
- Explanation of relevance of the proposed tutorial (0.5-1 page)
- Tutorial Logistics, including
  - Duration (3 hours = 1 session)
  - Description of Presentation format (e.g. one or more presenters etc.)
  - Special equipment required for the tutorial
  - Description of provided accompanying material (handouts, storage devices with media, etc.)
- Presenter information
  - Biography of Presenter(s)
  - Key Publications of Presenter(s) on the tutorial topic
  - List of previous tutorial experience
- Audience information
  - Target audience (e.g. new researchers to the field, research students, specialists of adjacent fields.)
- Other considerations/comments
- Bibliography (from description)

## Submission Procedure

- Proposals for the INTERSPEECH 2022 tutorials may be no more than 4 pages long and must conform to the format stated above; please use clear headings to indicate each point.
- Proposals should be submitted by email to [tutorials@interspeech2022.org](mailto:tutorials@interspeech2022.org) by **March 31, 2022**.
- Notification of accepted proposals will be given by **April 15, 2022**.
- By submitting a proposal, the presenter(s) understand the ISCA policy of strongly encouraging video recording of the tutorial for education purposes if the proposal is accepted. Access to recording materials will be given via ISCA Video Archives.
